# About SHIEN...

SHIEN is a new national network, facilitated by GHN and funded by the Scottish Government.

It is a network for those who recognise the importance of **involving & empowering** people to have a say on the decisions that affect their life.

SHIEN is for Local Authorities and Health Boards with the strategic and statutory responsibility for homelessness - as well as the diverse range of voluntary and other sectors that provide direct services and supports.

SHIEN recognises the overlaps between homelessness and **other forms of inequality and exclusion** - and so we also warmly welcome membership from service users, practitioners, policy makers and planners working toward wider health and community care objectives across Scotland.

SHIEN provides a highly regarded **Toolkit**, an online information **Resource Exchange** from national best practice initiatives, alongside **Networking** opportunities through an annual national conference and local seminars.

## Q: How do we join?

Complete and return the Joining Form.
