

Get ready, steady...

to GO! with Community Budgets

Be Upfront!

Scottish Government and Council leaders have agreed that **1%** of local budgets will be decided by community budgeting. This means that **YOU** and your local community will soon have a say on how money is spent in your area.

We are getting behind people who want to help get their area ready for community budgeting.

Could YOU be a Community Champion?

Get ready by:

- Being trained on community budgeting
- Being part of designing & running community workshops
- Sharing a few tools & tips for switching others on to community budgeting

Join Us

Full training provided & travel costs will be reimbursed.
